FACES & SMILES

You can look 10 years younger.

It is now possible for most people to enhance their facial appearance with the aid of non-surgical facial treatments. These treatments previously restricted to film stars and celebrities are now available at affordable prices to everyone.

However there are now many different types of treatments available, some of which may be considered untested over time. We have many years experience of these procedures and will advise you which, if any, may be suitable for you.

Cosmetic treatments include:

Crows Feet

Early signs of ageing are noticeable here. The eyes are our windows to the soul. You can notice immediate results with our rejuvenation treatments.

Lips

Beautiful lips attract attention and complete your facial features. Luscious lips are now attainable by you, making you look more gorgeous than you already are.

Frown Lines

The first thing that attracts people to your face is your eyes. Frown lines distract attention away from your eyes giving your face that 'Angry Look.'

Naso-ladial Fold

With ageing these folds become more pronounced and cosmetically undesirable due to excess skin, skin thinning excess fat cheeks and ptosis of cheek fat, giving you that stern look.

Zoom Teeth Whitening

Whitening your teeth for that brighter, cleaner looking smile. These are available in both home care kits or new in surgery zoom whitening system which takes just one hour.

Forehead Lines

If you have always wanted to know how to get rid of forehead lines and found that creams do not help then our range of facial rejuvenation treatments may be what you are looking for.

Please ask at reception to arrange your free consultation.

At your consultation - we will answer any questions you may have about cosmetic treatments, including advising you which treatments may be personally suited to you and giving you an estimate of costs involved.

Wake up with Make up

BY MANDY RIMMER

Permanent Make-up

A specialized form of cosmetic tattooing, permanent make-up is used to enhance and correct facial features by permanently implanting pigment within the skin using 2 different topical anaesthetic's to make your treatment pain free. You will feel comfortable enough to return to your regular work schedule right after the procedure, prices include one free top-up 2-4 weeks later.

Procedures include: Hair stroke eyebrows, shaded eyebrows, eye enhancement, eye liner, latino liner, lip liner, lip blush, full lip colour.

Laser Hair Removal

Laser hair removal works by focusing a laser beam at the base of unwanted hair follicles, causing them to stop producing hair. Because it has its effect using the dark pigment present in some hairs, this treatment is not effective for white, blonde or grey hair. A consultation will be needed to give an accurate price.

Areas treated: Top lip, chin, half face, neck, hands, feet, abdomen, bikini line, under arm, arms, legs, shoulders, chest, back.

Skin Rejuvenation

Using E-light laser. Although inevitable, the signs of ageing can be distressing, changing skin texture and tone or the appearance of lines or wrinkles can have a debilitating effect on your self-confidence.

With your wellbeing in mind our procedures help you delay these disheartening signs and improve the look and feel of your skin.

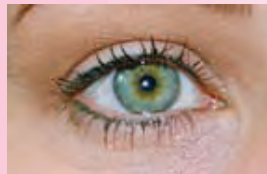

Areas treated: Full face, face and neck, hands and thread veins.

Other Treatments

Our home kits including skin peel and laser teeth whitening are to a very high standard showing great results! They work out very inexpensive, as you are not paying for the therapist's time.
